

# Be part of a story of growth and resilience, not hunger

 **HARVEST  
APPEAL**

Priscillah, Ripple Effect farmer, Kenya

## Event details:

**Date:**

**Time:**

Ripple Effect supports families in rural Africa to fight hunger and the climate crisis through sustainable farming training. Each farmer we work with, shares what they learn with their neighbours and communities so many more families benefit too. A ripple effect of positive change quickly spreads – reaching far beyond the farm.
